

To Whom It May Concern,

Dreamworks Construction recently completed a major reconstruction/remodel of our home in Calabasas. Toby and his staff did an incredible job. Toby worked closely with the architect, the cabinet company, and the interior decorating team. He was always patient, understanding, flexible, and was very responsive to their ideas. Toby also came up with many creative and exciting ideas which were incorporated into the project. Toby has a very professional and talented support staff. They were conscientious and always left the construction areas tidy and neat each night. Toby also has wonderful connections and contacts in the building community. When we visited carpet, marble or tile yards, etc., recommended by Toby, everyone at these sites gave us the VIP treatment and shared their respect for Toby with us... and Toby always followed up by inspecting our choices and critiquing the quality, etc... In our remodel we added three new entertainment centers in three different rooms with 60" flat screens. Toby connected daily with the communication company to insure the integrity of the project as it related to cabinetry and other details. Above all, Toby is serious about his work and understands the trauma we all go through when beginning major construction. We believe all the costs related to our project were fair and presented to us in a logical and timely manner. We highly recommend Dreamworks Construction. They were a "Dream" to work with.

Sincerely,

Howard and Ellen Wang
Calabasas, Calif.
